Eighty-Third Annual Report  
of the  
Committee of Management of  
The Royal Eye and Ear Hospital,  
BRADFORD,  
for the year ended December 31st, 1939.

---

THE Committee of Management has pleasure in presenting their Annual Report for the year 1939.

The year was overshadowed, almost from the commencement, by the threat of War, and the uncertainty of the functions of the Hospital upon the outbreak of hostilities.

The conversion of a Specialised Hospital into one capable of performing the duties of a General Casualty Hospital was no small undertaking, to say nothing of providing adequate Air-Raid Shelters for the Staff and Patients, and meeting all the necessary requirements for black-out conditions.

The Medical and Nursing Staffs have taken their part in the training of Auxiliary Nurses, and a number have been assisting in the practical work of the Hospital for a considerable time.

Thanks to much hard work and the valuable co-operation of the Honorary Surgeons, Matron, Staff and Secretary-Superintendent, the Hospital was ready to fulfil its role on the declaration of war.

The Committee wish to express their thanks to all those associated with these efforts, and also for the devotion to duty in the months that followed.

In the early days, owing to the necessity of allocating beds in accordance with the Government's instructions, the regular work of the Hospital suffered to some extent. Fortunately, conditions allowed some relaxation later on, and patients were able to receive a fuller share of attention.

After demolishing the old residence for Nurses, building operations for the Extension were suspended owing to the War.

The Nursing Home has continued to meet with the appreciation of many patients throughout the year.

The Committee wish to express very warm thanks for the following Legacies and Special Donations which have been placed to Capital Account:—

			£	s.	d.

The Ladies' Committee has again rendered invaluable assistance, and the "Pound Day" created another record in realising £322/5/0 value in cash and goods. The Committee consider this a remarkable achievement.

The help given to patients by Toc H and St. John Ambulance workers calls for special thanks.

The Bradford Hospital and Convalescent Fund (Incorporated) has again achieved wonderful results, and the Committee is most grateful for the handsome contribution amounting to £5,997/0/4.

The statistics for the year's work are as follows:—

## Report on Orthoptic Department for year 1939.

---

During the year 1939 there were 2,001 attendances in the Department, a decrease of only 15 compared with the previous year, in spite of the onset of war and the upheaval of evacuation.

This factor, however, naturally affected the work to some degree.

60 patients received treatment, as against 72 in the year before. The number of discharged patients was 29, of which 5 were adults and 24 were children. Of these, 12 cases required operation in addition to Orthoptics. Three cases failed entirely to respond.

The average number of attendances for the discharged cases was 52.

Four cases failed to continue treatment after commencing, and 30 new cases were sent in to the Department for examination and accepted for treatment.

The waiting list at the end of the year was negligible, and comprised mostly of children either too young, or purposely kept waiting.

## Report of the Ladies' Committee, 1939.

THE Ladies' Committee has pleasure in presenting its Thirty-Third Annual Report and Balance Sheet.

During the year, 111 visits were made to the Hospital. One patient was sent to the Craig Convalescent Home.

We received the resignation of Miss Ackroyd on account of ill-health, with much regret.

We are pleased to welcome Mrs. Harrison and Mrs. Firth (née Miss Jean Watson) as new members of the Committee.

The thanks of the Committee are due to everyone who helped to make the "Pound Day" a success—£185/18/11 was received in cash and 7,729lbs. in goods value £136/6/1—making a total of £322/5/0.

We received 60 garments from the Needlework Guild for which we are most grateful.

### IN-PATIENTS.

LINEN.—In-Patients must bring Slippers and a change of Clean Linen.

DISCIPLINE.—They must obey the orders of the Medical Officers, the Matron and the Nurses. They must not leave the Hospital without the special permission of the Medical Officers or the Matron.

VISITORS.—The friends of patients may visit them between the hours of Two and Four p.m. on Wednesday and Saturday, and Two and half-past Three on Sunday; two visitors are permitted to each patient. Visitors are strictly prohibited from conveying provisions and spirituous, or other liquors into the Hospital. Any infraction of this rule will be punished by withdrawal of the privilege of visiting in future.

The Committee hope that Patients and Visitors able to do so will contribute towards the maintenance of the Hospital by means of the Donation Boxes.

## The Prevention of Blindness.

---

The Committee, being painfully impressed with the fact that loss of sight might have been prevented in the case of many persons who apply for treatment, are anxious to make it known as widely as possible, that one of the most common causes of blindness is **INFLAMMATION OF THE EYES OF NEW-BORN INFANTS**, due to contagious matter getting into the eyes during, or soon after, birth.

The essential precautions to be adopted are:—

1.—Immediately after the birth of the baby, and before anything else is done, wipe the eyelids and all parts surrounding the eyes with a soft, dry, white rag; soon afterwards, wash these parts with clean tepid water, before any other part of the body is washed.

2.—If the child's eyelids become red and swollen, or a yellowish white matter appears between the eyelids within a few days after birth, **IMMEDIATELY** seek the advice of a doctor. The disease is very dangerous, and if not at once skilfully treated may destroy the sight of both eyes; but if attended to in time, it is nearly always cured without impairment of vision.

3.—In the meantime, until advised by the doctor, keep the eyes as clean as possible by washing away the discharge every hour during the day, and every two hours during the night. This is best done by separating the eyelids carefully with the finger and thumb, and allowing a gentle stream of clean lukewarm water to run between them from a piece of white rag or absorbent cotton wool, held by another person two inches above the eyes. The small pieces of linen or wool used must be burned immediately afterwards. Sponges must never be used for this purpose.

4.—If one eye only is affected, be very careful the discharge from it does not get to the other eye. The matter is very infective.

5.—After each attention to the eyes of the baby, the hands of the person attending to them must be thoroughly washed.

6.—Many other diseases of the eyes of children would be considerably modified and relieved if the eyes were kept scrupulously clean,
